## About Kish's Canvas

Kish is a modern visual artist who's art reflects his passion for Popular Culture, which he often seeks for inspiration to create modern interpretations of pop art using a variety of mixed media often not combined yet resulting in unique and original one-off pieces.

His past collections have featured multiple pieces created on various mediums as well as his innovative scul-painting collection that has showcased his skill in creating custom facial sculptures made to order for each individual personality and mounted on a custom painted backdrop, created to reflect the original qualities of those who have had pieces created for them.

Kish's latest project, Kish's Canvas; an original line-up of modern and vibrant pop art-inspired drawings of some of today's most iconic stars and public figures sees him making his pieces more accessible and available for instant-purchase on a variety of cool and fashionable apparel and accessory pieces now available to buy from his **online store**.
